Meet Your TEACHER

INTRODUCING

Ms Mohamed

ALL ABOUT ME

Hi! My name is Ms Mohamed. I was born on June 26th and guess what? I've met 3 other students who had the same birthday as me!

My favourite colour always changes, so I couldn't really say what it was. I've been teaching at Brentside for 4 years now and am excited to start my fifth year! I have been a teacher for many years! I am very kind, but strict when I need to be. When I was young, I never imagined I would grow up to be a teacher! I am looking forward to meeting you all very much in September, and hope you are ready to work hard and make yourselves, your parents, and I proud. ☺

SUBJECTS I LIKE TO TEACH

I love learning new things and teaching this to my class, because learning things makes you understand the world better. If I had to pick a subject though, I would say the subjects I like teaching most are Art, Maths and History.

Everyone has different subjects they enjoy more than others, and that's fine. What's important is that we don't use this as an excuse to do badly on the subjects we don't like. We should make a great effort in all subjects!

INTERESTS THAT I HAVE

I am a very creative person and absolutely love to draw and paint. I have been doing it ever since I was in nursery. I recently started to do something called 'digital art' where I draw and paint on a special program on the iPad.

I also love to cook food and bake- especially cupcakes, because I can decorate these in really cute ways. I like challenging myself with exercises. I am trying to get good at skipping at the moment! Maybe I could challenge some of you in the playground when we're back?

AN INTERESTING FACT ABOUT ME

I have a fraternal twin sister! Fraternal means that we do not look the same, but that we were in my mum's tummy at the same time and were born together.
