Dear Parents and Carers,

RE: Parent representative and WhatsApp groups

A few parents have raised that they would like to reintroduce the class/ parents WhatsApp groups that we had in place a few years ago.

*Parent representatives **ARE** there to support you and the school by doing the following:*

- Creating a class' 'WhatsApp' group to communicate with parents about up and coming events.
- Support parents in knowing where to go if they have an individual concern and point them in the direction of the school.
- Communicating important information with the school leadership team.
- Positively promote the school within the community.
- Facilitate communications about social activities for parents and children in your class to build friendships between parents and to make the organisation of class activities easier.
- Supporting parents and pupils who are new to the school.

It does require a parent representative from each class to volunteer to manage the WhatsApp group, as this is a group not run by the school but by the parents.

If you would like to put yourself forward as a class representative and run this group then let the office know via telephone, email or in person by Friday 3rd October 2025.

Once we have the class representatives in place we will send you their telephone number so that they can form the class group.

You do not have to be part of this group and only if you wish to. However I do know that parent have found it helpful for reminders and extra information about events taking place in your child class.

Thank you for your co-operation.

Caroline Crosdale
Head teacher
